

Great Migrations Studio -- Pricing Information

June 2010

gmStudio is a system re-engineering and analysis toolset for large-scale VB6/ASP/COM to .NET migration efforts. gmStudio enables an agile **Tool-Assisted Rewrite Methodology** that accelerates the migration process and saves time without sacrificing quality or control. As a migration development platform, gmStudio helps you verify, improve, and customize your translations so that they fit the unique requirements of your source code and .NET development standards. gmStudio handles systems of inter-dependent components as well as stand-alone applications. gmStudio also includes extensive analysis and reporting capabilities to help you plan, track and manage complex migration tasks.

To serve the needs of migration projects of variable scope and duration, we offer a number of monthly licensing options.

Feature	gmStudio Professional Edition
Source Languages	Both VB and ASP
Target Languages	Both C# and VB.NET
Maximum Lines of Source Code	Unlimited
Maximum number of migration projects	Unlimited
User-Defined COM Replacements	Yes
User-Defined Language Replacements	Yes
12-month (or more) Migration License	\$4,000 /month
6-month Migration License	\$4,500 /month
3-month Migration License	\$4,750 /month

Each license is for a single physical workstation. Additional workstation licenses and term extensions are available at discounted prices. For small projects, a 1-month, renewable license is available.

First Month Introductory Special

For a limited time, we are offering the first month of each gmStudio Professional Edition license for only \$495.

Technical Support

All licenses include basic on-line training, product updates, and help with resolving installation and translation issues.

Smart Start Package

This short off-site engagement will accelerate your migration efforts. The deliverables include a first-month gmStudio Professional Edition License, initial translations, detailed assessment reports, and high level recommendations for your pending migration project. Prices start at \$2495 per system; typical duration is one week.

Advanced gmStudio Training and Migration Services

We offer additional advanced training and migration services to licensed customers and partners upon request.

gmStudio Demo Service

This service includes a demonstration of the gmStudio product that shows what the tool “can do” with a sample code extracted from your VB6/ASP/COM codebase. In a web demo, we present the sample translations and the features of gmStudio that are relevant to your pending migration effort. There is no charge for the Demo Service.

gmStudio Trial

This is a scaled-down version of gmStudio Professional Edition that we provide to help you evaluate gmStudio. The Trial is time and LOC limited: up to 15 days of use on codes up to 5K LOC. There is no charge for the Trial.
