

Great Migrations Studio -- Pricing Information

March 2011

gmStudio is a system re-engineering and analysis toolset for large-scale VB6/ASP/COM to .NET migration efforts. gmStudio enables an agile **Tool-Assisted Rewrite Methodology** that accelerates the migration process and saves time without sacrificing quality or control. As a migration development platform, gmStudio helps you verify, improve, and customize your translations so that they fit the unique requirements of your source code and your .NET development standards. gmStudio handles systems of inter-dependent components as well as stand-alone applications. gmStudio also includes extensive analysis and reporting capabilities to help you plan, track and manage complex migration projects.

To serve the needs of migration projects of variable scope and duration, we offer a number of monthly licensing options.

Feature	gmStudio Professional Edition
Source Languages	Both VB and ASP
Target Languages	Both C# and VB.NET
Maximum Lines of Source Code	Unlimited
Maximum number of migration projects	Unlimited
User-Defined COM Replacements	Yes
User-Defined Language Replacements	Yes
12-month (or more) Migration License	\$4,000 /month
6-month Migration License	\$4,500 /month

1-month Migration License	\$5,000 /month

Each license is for a single physical workstation. Licenses for additional workstation are available at a discount.

gmStudio Trial Feedback Incentive Program

Use the gmStudio Trial and send us your detailed, technical ideas for improving translation quality and you may receive up to \$2500 discount off your first month gmStudio Professional Edition License.

Technical Support

We are committed to our customers' success with gmStudio and to incorporating feedback that helps us improve our product. All licenses include free product updates, and support with resolving installation and translation issues.

Try Before you Buy

Visit the [gmStudio Trial request page](#) to learn about various no cost options for evaluating gmStudio.

Smart Start Package

This short off-site engagement will accelerate your migration efforts. The deliverables include a gmStudio Professional Edition License, initial translations of your codebase, detailed assessment reports, and high level recommendations for your pending migration project. Prices range from \$7,495 to \$19,995 based on license duration, system size, and options.

Advanced gmStudio Training and Migration Services

We offer additional advanced training and migration services to licensed customers and partners upon request.
